# Residential Services

## Professional Roofing and Waterproofing

It's a well known fact that roofs don't last forever, especially with the unpredictable UK climate. Here at Able Waterproofing we are industry specialists when comes to roof construction and re-roofing services, with years of experience and expertise across a wide range of roof styles, products and designs.

We are your total one-stop solution for design, estimate, specification and project management. Upon receipt of your enquiry a member of our experienced team will visit your premises and provide you with all the necessary professional expertise to make your decision a hassle free process.

By working with the best materials and employing expertly trained staff we are confident your new roof will be one you can enjoy for years, improving your property's appearance and adding value to your home.

There is a wide range of products available to our customers and we facilitate all common roof styles from asphalt to concrete tiles, for either flat or pitched roofing.

Call our friendly staff today with your enquiry and make your roofing dreams a reality with Able Waterproofing.

## Why choose Able Waterproofing?

With over 25 years of experience on both domestic residential and large scale commercial projects, Able Waterproofing are the perfect choice for all roofing and re-roofing requirements.

We consistently invest in the most modern repair methods and roof surfacing techniques, ensuring your investment is installed to the highest professional standards.

Mastic Asphalt Council

Mastic asphalt is the ultimate in protection for a wide range of construction applications. It offers total waterproofing integrity for roofing and tanking, acts as a tough working surface and damp-proof membrane in flooring and is ideal for paving, offering a durable wearing surface.

## How To Find Us

### By Car

From Central London join the A23 at Oval and follow south through Brixton towards Croydon. Just after Thornton Heath at the "Lombard" roundabout bear off following the A236 Mitcham Road towards South Croydon. We are located just after the A213 Sumner Road on the right hand side behind the petrol station and Kwik-Fit service centre.

From junction 7 M25 join the M23 / A23 north through Hooley towards Croydon. Continue along the A23 until Purley where you should bear off along the A235 Brighton Road towards South Croydon. At South Croydon take the A236 Southbridge Road and continue straight, passing under the Croydon flyover. This leads to Roman Way / Mitcham Road and we are located just after the army barracks behind the Kwik-Fit service centre.
